## DETAILED ACTION

### *Current Status*

1. Claims 9-28 are pending in the application.
2. This action is responsive to applicants' amendment of 1 December 2006.

### *Priority*

Acknowledgment is made of applicant's claim for foreign priority under 35

U.S.C. 119(a)-(d).

### *Claim Rejection*

Claims 9-28 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. For example, claim 9 reads: a process for obtaining a purified gas by removing polysulfanes from crude gas formed during the production of hydrogen sulfide, comprising: a) passing said crude gas through a wash system where said crude gas is brought into contact with a wash solution comprising water or methanol; and b) collecting said purified gas from the wash solution of step a). The original claim 1 reads: a process for the removal of polysulfanes from crude gas formed during the production of hydrogen sulfide, characterized in that the crude gas, with a content of > 80 vol.% H<sub>2</sub>S and > 100 to 2000 vpm, especially > 400 to 1500 vpm polysulfanes (H<sub>2</sub>S<sub>n</sub> with n: 2 to 8), is passed through a washer system, brought into contact there with water and/or methanol and a pure gas is obtained. The original

claims are more limited in scope than the presently claim invention. **Applicant is required to cancel the new matter in the reply to this Office Action.**

**No claims are allowed.**
